### Looking for Illustrations

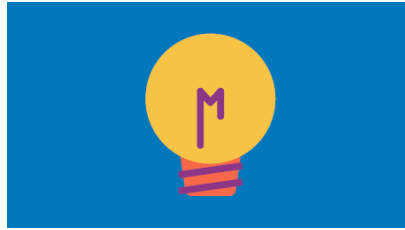

According to Mikey, on the first of Kislul you can come across the animal you like the most, even a dragon! Browse through the book – will you be able to find the dragon hiding in the different pages?

### Our own calendar

Following Mikey, you can make a calendar of the months of the year together, in which you will mention memories of significant moments you have experienced, or events that you are looking forward to. Alongside the memories and events, you can paste a picture, draw a painting, or write an emotional sentence.

### **Celebrating Kislul Together**

There are a lot of holidays in the month of Kislul: Tu in a movie, a treasure hunt holiday, a surprise holiday and more. You can choose one of the holidays that Mikey has invented and celebrate it together with family members or friends.
