Close to home, dear to our heart

What is your favorite place? Is it at home? Is it nearby? Or is it far away from home?
You could share with one another: What your special place is, what you like about it, and what makes it special to you.

The grace of a place

You can find good things everywhere; every place has some grace. Take turns choosing a place, whether near or far, in Israel or elsewhere, real or imaginary, and having the other participants ask questions about it to discover what makes it so wonderful.

A good station

How can a bus station make people happy? Scan the code and watch the Jerusalem schoolchildren's heartwarming initiative.

In our environment

What is happening near your home? Go on a short walk outside, and try to find out how you could do good in your own surroundings: How about picking up wastepaper and placing it in the recycling receptacle? Or offering people waiting at the bus station a drink of water? Or setting up a street library with your neighbors?
