קְרִיאָה

Family reading advice

While you read, you can use different voices and invite the children to do the same: What does a person sound like when s/he bursts out crying? What does a hole being drilled into the wall sound like? Even if you're not professional actors or actresses, your active participation in the story will enhance your shared experience and delight.

שִׂיחָה

Children's wisdom

The judge learns from the girl how to resolve the case brought before him. Following this book, you can discuss your children's knowledge and strengths with them: It can be a hobby, insight or shared memory from an incident in which they contributed their experience and wisdom. You, parents, should also share: What have you learned from your child?

חקר

What floats in water?

Do oil droplets indeed float in water? You can see for yourselves by adding a few drops of oil into a bowl filled with water. You can later check what else floats: What happens to a piece of paper in water? Or a paper boat? A fork? Or a leaf? And how about a small plastic toy?

מִשְׂחָק

Resolving disputes

Just as they do in this book, you too can try to resolve a disagreement on some issue: Each party presents their case, everyone listens, and suggests how to resolve the dispute.

You can also swap roles and explore together – is only one of you right? Or can you, perhaps, reach some other kind of understanding?
