שִׂיחָה

Actions Speak Louder than Words

You can discuss Yashka's statement: "Words won't help, we need to convince them with actions". Ask what he means by it and what your opinion is. When is it best to speak and discuss things first, and under which circumstances would you prefer to convince with actions?

לְצֵאת הַחוּצָה

For our Environment
Do you have a favorite public place in your vicinity? When you visit it, take a moment to think about what makes it pleasant, how it contributes to the environment, and how it can be protected. For example, you can initiate a cleaning up or cultivating spree with your family and friends.

יְצִירָה

Original Inventions
Yashka makes special inventions such as a night light that turns off when you fall asleep and an underwater bird observatory. What helpful and special inventions would you like to invent? You can imagine them, draw sketches of them, or build special inventions

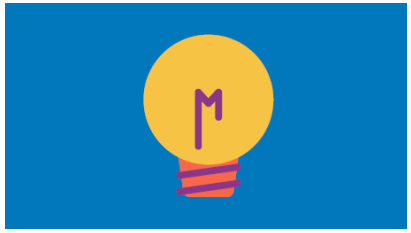

from whatever is lying around your house.
